

CADAVERWORKSHOP

ELBOW SURGERY

WHEN

Friday February 23rd, 2018

WHERE

IORT Leuven

Vesalius Institute, Minderbroederstraat 12, Leuven

SPONSORING COMPANIES

ZimmerBiomet • Wright • Hospital Innovations • ProMedionics

ORGANISATION

COURSE INTRODUCTION

This cadaver course is a joint organization of UZ Gent, UZ Leuven, TerBrugGen and the IORT Leuven and is intended for orthopedic trainees with special interest in elbow surgery.

With theoretical and practical sessions we aim to familiarize the participants with surgical approaches and techniques in elbow pathology. Short lectures by the faculty members will highlight the most important surgical steps during a selection of orthopedic elbow procedures, after which all participants will have plenty of time to improve their surgical skills in the cadaver lab.

FACULTY MEMBERS

Dr. Bart Berghs
Prof. Dr. Ilse Degreef
Prof. Dr. Lieven De Wilde
Prof. Dr. Roger Van Riet
Prof. Dr. Alexander Van Tongel

AZ St-Jan Brugge – TerBrugGen
